DENNIS UNIFORM

Welcome to Shopping Online

Visit www.dennisuniform.com to get started

Start by searching for your school!

Type in your school name. If you don't see it right away, add the state for a more specific search. It's also helpful to remember your school code, which is located next to the name.

Next, select the grade & gender of your student.

Here, you'll see the uniform program for your student.

If you're not sure what items to start with, see the shopping list at the top of the page.

You can also sort items or filter by the product type on the left side of the page.

Sizing & Fit Tips and Tricks

How to Accurately Measure Your Child

YOU WILL NEED:

Record the measurements
as you go

Use a flexible measuring tape:

1. **Measure Height:** Stand tall (without shoes) and measure from top of head to floor.
2. **Measure Chest:** Measure at the fullest part in inches.
3. **Measure Waist:** Measure at the narrowest part in inches.
4. **Measure Weight:** In pounds.

Tips & Tricks:

- Don't measure over clothing.
- Student should be wearing undergarments, with no shoes.
- Measuring tape or string should be snug but not tight.
- Be sure to record your student's measurements as you go!

Use the size charts at dennisuniform.com/sizing to find the perfect fit for any item!
Between sizes? Order a size up to ensure the best, longest-lasting fit.

Get the Perfect Fit the First Time

Sizing & Fit Tips and Tricks Continued

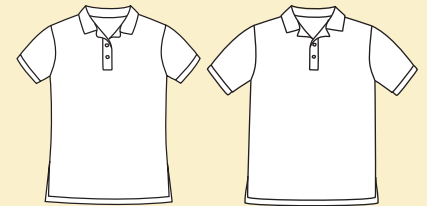

Slim, Regular, Husky – Which one do I need?

Slim: The main difference between regular fit and slim fit is how close the garment fits to the body. While not restrictive, slim fit is narrower and has a more tailored fit in the thigh and waist area in the pants. If your child is on the slender side, slim fit may be just the perfect option for a tidy look.

Husky: Husky pants offer a more spacious fit throughout the waist, hips and thighs for growing kids who need a little extra room. The pants have a larger waist measurement and are wider throughout the thigh and leg, but have the same inseam measurement as regular-length pants.

If your child doesn't fall into either of these categories, the **Regular** fit should work perfectly. For most DENNIS uniform items, it's typically better to size up for a longer-lasting and more comfortable fit! See individual size charts at dennisuniform.com/sizing for more details.

Feminine Fit

Unisex Fit

POLOS: Feminine Fit vs. Unisex Polos – What's the difference?

Our Feminine Fit Polos offer subtle waist shaping for a neat and trim fit on girls and young women, while the Unisex Polo offers an easy fit for every body.

Junior Sizing Explained

Juniors sizes are for girls and young women 5'0" - 5'5" and are designated by uneven (odd numbered) sizes. The sizes for juniors are usually taller than girl's sizing (if she is over 5'5", refer to women's / adult sizing) but slimmer in the hips and bust than women's sizing. There is an adult alpha size equivalency, seen here!

For the right fit, print at "100% scale" (uncheck "page scaling").

IF A CREDIT CARD FITS IN THIS BOX BETWEEN THE OUTLINES, YOUR PRINT SCALE IS CORRECT.

	length	width	date
left			
right			

LENGTH

1. Cut out width ruler and set aside. Tape size guide to a hard floor with the curved line touching a wall.
2. Place one foot on the length ruler, aligning heel with curved line.
3. Mark the first visible line past longest toe with pencil.
4. Record measurement and repeat for other foot.

WIDTH

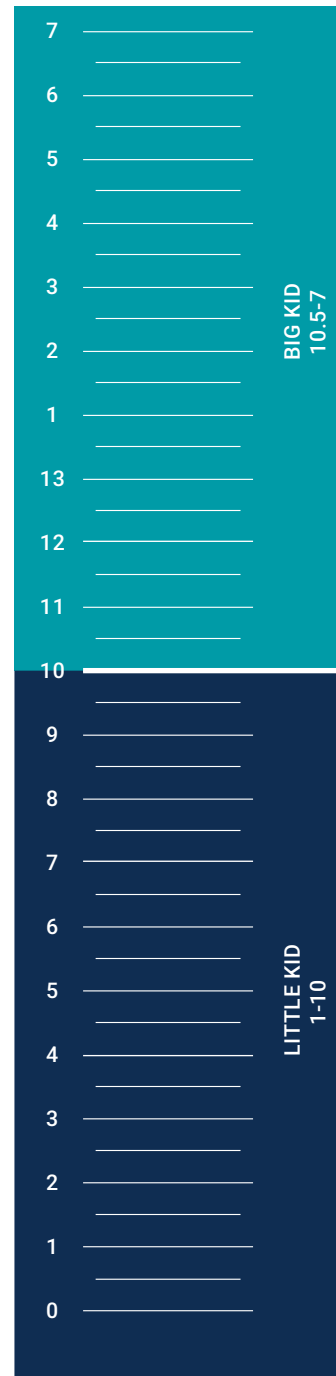

1. With child standing, wrap the width ruler around the widest part of the foot.
2. Mark the line that meets the arrows  with a pencil. Ensure you mark the side closest to the ankle.
3. Determine where your child's length measurement falls within that line. For instance, if your child's length is 7:
 - » If arrows align with the 7, the width is medium.
 - » If arrows align with the 7, the width is **wide**.
 - » If arrows align with the 7, the width is **extra wide**.
4. Record each foot's width.

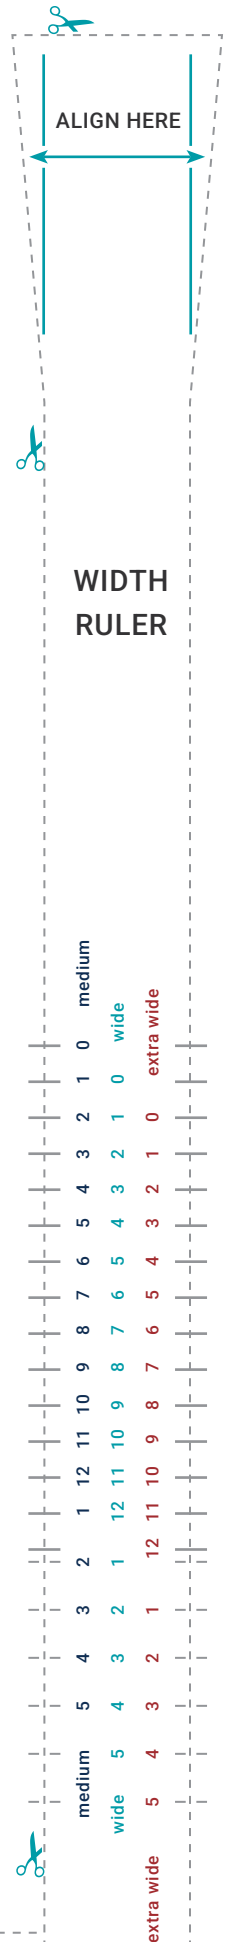

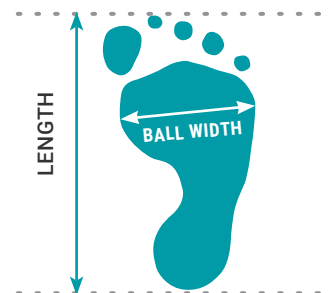

Note: If your child's feet are two different sizes, choose the larger one. If your child is between widths, use the wider one.

DID YOU KNOW?

A child's foot can grow up to a half size every three months, so be sure to re-measure every two months.
